GAS FIREPLACES

WHY CHOOSE REGENCY?

FIRE TRANSFORMED TO ART

My vision was to elevate the role of a fireplace beyond heating function to a highly stylized art form congruent with today's modern homes. I focused on clean lines crafted from unique materials and finishes. These elegant frames wrap artfully around a fire that dances evocatively from a fire bed blanketed in vibrant crystals or natural stones. Prepare to impress.

REGENCY QUALITY...BEAUTY THAT HEATS

For over 35 years Regency has carefully researched trends to develop fireplaces that fit your life. A perfect combination of function and beauty; each Regency is a high efficiency heater with a beautiful view. Cut your heating bills by turning your furnace way down and enjoy high efficiency, controllable heat in the living areas you spend time in. And, enjoy peace of mind knowing all Regency products operate during power outages.

LIFETIME GUARANTEE

I am so confident in the quality workmanship, fine materials and durable heavy-duty construction invested in each and every Regency, I offer a Limited Lifetime Warranty. I know that you will be as proud of your Regency Contemporary Collection Fireplace as I am – I guarantee it.

REGENCY REMOTE AND THERMOSTAT COMFORT CONTROL

Proflame GTMF Remote Control

Programmable Thermostat

Create optimal comfort with ease and convenience at the touch of a button with the Regency Comfort Control System. Our user friendly programmable controls can be set, adjusted and programmed for your fireplace to come on at the temperature you want, when you want it. Regency control systems are available with a variety of features to suit your home heating needs.

* *Smart Thermostat* - Rather than a thermostat that simply turns your fireplace on and off, the Smart Control function allows you to set your desired room temperature. As the room reaches your personal setting, the flame intensity and heat gradually decrease - keeping the ambience of your Regency fire on with less heat output and the option to turn it off at any time.

** For models that have a blower.

*** For models that have an optional accent light.

MAXIMIZING COMFORT AND EFFICIENCY

Regency Fireplaces deliver controllable heating solutions by combining the latest in radiant/convection heat technology and innovative features.

- Adjustable flame/heat control
- Heat radiating ceramic glass for maximum radiant heat performance
- SureFire Electronic Ignition switch with battery backup features fuel saving intermittent pilot ignition that conserves energy when not in use.
- Power's Out, Heat's On. All Regency gas fireplaces operate without electricity. Enjoy peace of mind all winter long.

DESIGN VERSATILITY

AstroCap (painted to match home)

You can enjoy the convenience of a gas fireplace anywhere in your home with a **Regency Direct Vent Fireplace**. Regency Direct Vent Fireplaces maintain indoor air quality by drawing fresh combustion air from outside through our specialized venting system into a sealed firebox and sending the used air back outdoors.

Direct Vent Technology allows you to add a fireplace to rooms with no existing chimney. Simply vent your fireplace through an outside wall and finish it with the patented **Regency AstroCap Flex Venting System**.
